Summary

I am a Student at the Faculty Of Engineering Ain Shams University. My major is Electrical Engineering. I am very passionate about learning new things especially in the field of AI and software development. I always seek new challenges and self development that's why taking up new courses constantly is more like a hobby to me. I have participated in many team projects until now and I am so excited to join more in my future college years. These Projects have been so beneficial for me in the aspect of personal skills as well as technical skills and these skills will surely help me in my career.

Experience

Extra curricular activities

SemiColon

Oct 2023 - Present (5 months)

I am currently a member in the web development sector. I am still in my learning phase which should end up by me being the mentor of the students who will apply for our workshops in the summer vacation as a part of Semicolon's AC team.

Extra curricular activities

ASUFE CPC

Oct 2023 - Present (5 months)

I am currently up to level 2 in the training. I have learnt a lot in the field of competitive programming by passing level 1 and I am still learning. The training helped me improve my problem solving skills using C++.

Team Projects

College

Designing a Portable Water Dispenser that works with solar energy.

Designing a Decade count up counter using logic gates.

Education

El Nozha Language Schools

Graduate

I graduated from my school with score 92.02% in Thanaweya Amma.

Ain Shams University

Student , Computer and systems engineering

Oct 2021 - Jun 2026

I am now in junior level.

My cumulative GPA is: 3.23.
